PROPOSAL FOR A TRANSNATIONAL REFERRAL Paper

**To be used by NGOs working with victims of human trafficking**

The objective is to develop a transferral template for the facilitation of transnational cooperation at the operational level between NGOs from countries of destination, origin and transit

Our questions are:

1. What kind of data should be provided about the victim?
  - Personal data (name, age, gender, origin, family situation -children, husband- others....)
  - Personal story
  - Legal situation
  - Social Situation
  - Psychological situation
  - Services received (assistance provided by referral NGO or other institutions in the country she is coming from)
  - Data protection, confidentiality, ethics issues
  - Others?

Reasons or evidences that suggest that she/he is a trafficked victim

Detected needs

Suggestions about potential services to be offered to the victim

Any other information?
